

# PROTECT AND COVERT SECURITY

# SOVEREIGN SECURE

**“At Sovereign Secure we pride ourselves on providing experienced operators to deliver a bespoke range of protection and covert security services to a broad spectrum of clients”**

**Our experienced operatives on the Sovereign Secure team can provide discreet and effective protection and covert security for your organisation.**

Sovereign Secure is owned and managed by highly qualified security professionals. We place our clients' safety and security as our highest priority, always providing the highest level of service through our carefully selected, experienced team.

We work closely with each of our clients to identify a tailored security solution that not only suits your specific needs, but is also attainable and in line with budgets, locations, timings and changing circumstances — as such, we provide a quick response, flexibility and scalability to your evolving requirements. The Sovereign Secure team is experienced in working as the sole security provider or can work with existing security teams to provide additional expertise or local knowledge when and where required.

Sovereign Secure understands that individuals, families and groups can face a broad range of security threats and danger either at home or when travelling domestically or internationally. We also realise that high profile security is not always required, so are always discreet and work with our clients according to their needs, while ensuring that our clients' safety and security is the top priority. Prior to any of our clients travelling (whether for brief or longer periods), attending events or meetings, we ensure that all security aspects of their logistics and arrangements are identified, planned and managed in a discreet, low profile and effective manner.

## **PERSONAL/EXECUTIVE SECURITY**

Sovereign Secure's team of experienced security professionals will provide close protection, drivers and, where needed, personal bodyguard security. We always meet with our clients and gather all relevant information ahead of our services being required.

## **KEY SERVICES**

**Personal/Executive Security**

**Vehicle/Aircraft Security**

**Room Sweeping**

**Covert Review**

We will assign an individual operative or highly trained security team depending on our threat assessment and our clients' requirements, schedules and travel arrangements, with our service always remaining discreet, professional and effective.

## **VEHICLE/AIRCRAFT SECURITY**

New threats are constantly evolving for high profile or professional individuals when travelling at home and abroad. No matter what types of transportation you need to use, Sovereign Secure works closely with our clients to assess all vehicles and travel logistics, to plan a complete, bespoke security solution prior to travel. Our comprehensive security includes physical checks prior to and during all travel to identify any security threats and take the required action.

Aircraft security not only covers physical checks — we work alongside the relevant bodies to ensure client security from take-off to landing and transfers. In addition to ensuring all our clients' vehicles, aircraft or other craft are secure, Sovereign Secure can provide a wide range, size and specification of aircraft and armour-plated vehicles, tailored to our clients' needs, numbers in their party and travel logistics.

These vehicles can be provided both in addition to our clients' existing travel security plans, or in-country where you may be travelling to.

# SOVEREIGN SECURE

Our end-to-end logistics service ensures that we are in control of all aspects of our clients' security needs, and they are safe and secure at every stage of their travel schedule.

## ROOM SWEEPING

No matter where you are in the world, Sovereign Secure will ensure you are secured against covert surveillance. Bugging devices are increasingly available and are getting smaller, cheaper and more advanced — posing a security threat to individuals and organisations. Sovereign Secure's team is experienced in protecting both UK and international clients' personal and business interests from covert surveillance, by providing leading edge Technical Surveillance Counter Measure (TSCM) services. Our room, venue, electronic devices (including mobiles and IT equipment) or vehicle professional electronic bug sweeping services will detect, locate, investigate and take measures to eliminate any listening or tracking devices — all carried out with the highest level of discretion.

## COVERT REVIEW

Depending on the security threat, sensitivities, or our clients' existing arrangements, Sovereign Secure can provide covert reviews and security. We meet with our clients to identify the requirements and agree all aspects in advance. The Sovereign Secure team then carries out the required review on a covert, highly discreet basis. 'Hidden' covert reviews are a skilled task, and our fully licensed and insured operatives are carefully selected and handpicked based on each of our clients' requirements.

We have experience across a broad range of complex covert security, including potential security threats, testing current security services, infiltrating groups, insights on an individual's movements, and potential infidelity. All findings, recommendations and solutions are provided to our clients, resulting in potential further involvement and support from our team.

## WHY CONTACT SOVEREIGN SECURE

Sovereign Secure is a specialist security company developed, owned and managed by experienced and qualified security experts with significant global experience. We have two specialist offerings:

- Protection and Covert Security
- IT Security

Our highly trained team is experienced in a range of specialist security services, and our personal, consultative approach to clients' security requirements means we are able to provide bespoke security solutions, tailored to each client's needs

**We know the importance of sourcing and securing established, experienced and professional security experts. Email or call us to discuss your requirements discreetly and in confidence.**

**We are ready to respond to your requirements.**
